**ADAPT PREMIUM CONDENSING WITH X3 TECHNOLOGY**

Introducing State's new condensing gas tankless product line with X3™ Scale Prevention Technology extending the life of the the unit three times longer than traditional tankless. This is the first tankless product that maintains like new performance without requiring regular scale-related maintenance.

- **X3™ Scale Prevention Technology**
- Extends the life of the unit up to 3 times longer
- Eliminates the need for regular scale-related maintenance
- No warranty exclusions for hard water
- Maintains "like new" performance longer
- 2" PVC venting for easy installation
- 1/2" gas line connection at unit
- ENERGY STAR® certified
- Field convertible from NG to LP, kit included
- Indoor
- Ultra-Low NOx emissions
- integrated recirculation pump comes standard

### X3 Condensing Tankless Water Heater

Introducing State's new condensing gas tankless product line with X3™ Scale Prevention Technology extending the life of the the unit three times longer than traditional tankless. This is the first tankless product that maintains like new performance without requiring regular scale-related maintenance.

- **X3™ Scale Prevention Technology**
- Extends the life of the unit up to 3 times longer
- Eliminates the need for regular scale-related maintenance
- No warranty exclusions for hard water
- Maintains "like new" performance longer
- 3/4" gas line connection at unit
- ENERGY STAR® certified
- Indoor or outdoor
- Ultra-Low NOx emissions

#### 15-Year Limited Warranty

86300125	Gts-540x3-nih 199kbtu Res/com Nat Wtr Htr	3590.00
86300130	Gts-540x3-pih 199kbtu Res/com Pro Wtr Htr	3670.00

### 95% State Condensing Tankless Water Heater

- **Ultra-Low NOx** Condensing Technology Provides Unprecedented .95 EF, .93 EF on GTS-140
- **Continuous Maximum Flow Rates** to 10.0 GPM, to 6.6 GPM on GTS-140
- **Flow Capacity @ 70° rise:** 140= 3.2gpm, 240=4.3gpm, 340=5.2gpm, 540=8.7gpm
- **Primary Heat Exchanger** is constructed of HRS35 Commercial-Grade Copper which is more resilient against erosion and **Secondary Heat Exchanger** is made of Type 316L Stainless Steel to protect against corrosion
- **ENERGY STAR®** Qualified
- **Residential and Commercial Applications**
- **Built-In Temperature Controller** and Advanced Diagnostics to Simplify Troubleshooting
- Factory-Installed **Power Cord** Included for Indoor Models
- **Easy-Link up to 4 Units** (not GTS-140)
- **Multi-Link up to 20 Units** (on GTS-540 Models only with no additional parts or accessories)
- Complies with **Lead Free** Standards
- Internal Freeze Protection System

#### Safety Features:

- Air-Fuel Ratio (AFR) Sensor
- Exhaust & Water Temperature Safety Control
- Overheat Cut-Off Fuse

**Premier© Direct Solar Booster Tanks 6-Yr**

Direct solar water heating systems require a supplementary source of water heating power and hot water storage for periods when solar components cannot keep up with system demand. Energy-efficient Select® electric booster tanks, available in 80 or 119-gallon capacities, are specifically designed to meet the need for consistent water temperature and constant hot water supply, 24 hours a day!

- Low-Watt Density Copper Heating Element
- Top or Side Recirculating Connections
- Diffuser Dip Tube Made of State PEXAN™
- Glass-Lined Tank
- Primary and secondary Anode Rods
- 2" Thick (R-16) Foam Insulation
- Durable Brass Tamper-Resistant Drain Valve
- CSA Certified and ASME Rated T&P Relief Valve

STATE-CE- State Commercial Electric Water Heaters  
Page A - 22

Sandblaster Commercial Electric Heaters

MODELS - CSB 52, 82, 120  
SURFACE MOUNT THERMOSTATS

Sandblaster Commercial Electric Heaters  
3 Year Limited Warranty on Tank

Designed for use as a recovery heater having its own storage tank. Note: Not recommended for sanitizing water application.

FEATURES

**GOLD ELEMENTS** - CSB models ship with the gold plated elements (see element availability chart on back). Patented gold elements provide long life and superior scaling resistance. Low watt density means lower surface temperature to minimize scale buildup and more surface to heat water. Gold elements carry a one-year warranty against failure due to lime scale build-up.

**GLASS-LINED TANK** - Three sizes: 50, 80 and 119 gallon capacity. Tank interior is coated with glass specially developed for water heater use. Tanks rated at 150 psi (1034 kPa) working pressure (ASME 150 psi). Foam insulation reduces costly heat loss, and is vermin proof.

**FUSING** - Protects all elements, thermostats, and internal wiring circuits against excess current flow. Meets National Electrical Code requirements that non-ASME tanks must have internal fusing when current draw exceeds 48 amps.

**STANDARD VOLTAGES** - 208, 240 and 480V single-phase and three-phase delta. Convertible from three-phase to single-phase (in field) and vice versa. 277V single-phase also available.

**TERMINAL BLOCK** - Factory installed. Just bring the service to the heater and connect to block.

**CONTROLS** - One temperature control (adjustable through a range of 120° to 180°F) and manual reset high temperature cut-off per element. Thermostat step control may be achieved by varying settings on individual temperature controls. Located behind hinged control compartment door for quick, easy access.

OTHER STANDARD FEATURES -

- \* **Surface mounted thermostats** \* Simplified circuitry, color coded for ease of service
- \* Two anode rods for maximum corrosion protection
- \* Cabinet has bonderized undercoat with baked enamel finish
- \* Bottom inlet and top outlet openings \* Brass drain valve \* CSA / ASME temperature and pressure relief valve \* Single panel control box.

Since 1887

STATE-CE- State Commercial Electric Water Heaters  
Page A - 26

Sandblaster Commercial Electric Heaters  
MODELS - CSB 52, 82, 120  
IMMERSION MOUNT THERMOSTATS

ASME  
(OPTIONAL)

Designed for use as a recovery heater having its own storage tank. Note: Not recommended for sanitizing water application.

**ADVANCED ELECTRONIC CONTROL** - Plain English text and animated icons display detailed operational and diagnostic information. Fault or Alert messages appear if an operational issue occurs. Immersion temperature control adjustable through a range of 90°F to 190°F.

**ECONOMY MODE OPERATION** - Control system automatically lowers the Operating Set Point by a programmed value during user-defined time periods. Helps reduce operating costs during unoccupied or off - peak demand periods.

**LINEAR SEQUENCING** - Banks of heating elements (3 elements per bank) are energized according to adjustable (1 to 20°) differential set points for each bank. First bank on is the last bank off. Helps reduce current surge and provides accurate water temperature control.

**GOLD ELEMENTS** - CSB models ship with the gold plated elements (see element availability chart on back). Patented elements provide long life and superior scaling resistance. Low watt density means lower surface temperature to minimize scale buildup and more surface to heat water. Gold elements carry a one-year warranty against failure due to lime scale buildup.

**GLASSLINED TANK** - Three sizes: 50, 80 and 119-gallon capacity. Tank interior is coated with glass specially developed for water heater use. Tanks rated at 150 psi (1034 kPa) working pressure (ASME 150 psi). Foam insulation reduces costly heat loss, and is vermin proof.

**FUSING** - Protects all elements, thermostats, and internal wiring circuits against excess current flow. Meets National Electrical Code requirements that non-ASME tanks must have internal fusing when current draw exceeds 48 amps. STANDARD VOLTAGES - 208, 240 and 480V single-phase and three-phase delta. Convertible from three-phase to single-phase (in field) and vice versa. 277V single-phase also available.

**TERMINAL BLOCK** - Factory installed. Just bring the service to the heater and connect to block.

**MAGNETIC CONTACTORS** - Heavy duty, UL rated 100,000 cycles.

**OTHER STANDARD FEATURES -**

Immersion style thermostats Simplified circuitry, color coded for ease of service. \*Two anode rods for maximum corrosion protection \* Cabinet has bonderized undercoat with baked enamel finish Bottom inlet and top outlet openings. \* Brass drain valve CSA certified and ASME rated T&P Relief Valve  
\* Single panel control box

3 Yr Limited Warranty on Tanks

**Patriot Light-Duty**

MODELS - PCE 6, 10, 17, 20, 30, 40,  
52, 66, 82 & 120

**Patriot Light-Duty**

**3 Year Limited Warranty on Tank**

Various Gallon sizes and heights available to fit any commercial application

**FEATURES**

**GLASS-LINED TANK** - Thirteen sizes; 6 thru 119 gallon capacity. Tank interior is coated with glass specially developed for water heater use.

**ELEMENTS** - Zinc plated copper sheaths for longer life. Medium watt density means lower surface temperature to minimize scale build-up and more surface to heat water. Element sizes from 1.5 to 6 KW. Max input 12 KW

**STANDARD VOLTAGES** - 120, 277 single-phase and 480V unbalanced three-phase delta; easily converted to single-phase terminal block (except 208V with 5500 watt elements) Single element heaters, single-phase only..

**TERMINAL BLOCK** - Factory installed. Just bring the service to the heater and connect to block. Terminal block not supplied on 120V and 277 volt models. (No junction box on PCE 6-20)

**CONTROLS** - Temperature control (adjustable through a range of 130° to 170°F on single element and 120° to 181° on dual element) and manual reset high temperature cut-off per element (dual element models). Factory-wired for non-simultaneous operation; easily converted to simultaneous element operation (three phase models only).

**CSA CERTIFIED AND ASME RATED T&P RELIEF VALVE**

**SIMPLIFIED CIRCUITRY, COLOR CODED FOR EASE OF SERVICE**

**ANODE ROD FOR MAXIMUM CORRISION PROTECTION**

**CABINET HAS BONDERIZED UNDERCOAT WITH BAKED ENAMEL FINISH**

**TOP INLET AND OUTLET OPENINGS**

**DRAIN VALVE (EXCLUDES PCE 6-20)**
